Chapter 382: The Divine Triad’s Era of Peace and Dominion

Unrivaled Supremacy

As the power of the Divine Triad reached unparalleled heights, no entities within or outside the multiverse could rival their might. Sung Jin-Woo, the True Absolute One, Sung Su-Ho, the True Dragon God, and Ashborn, the True Celestial Being, stood as the ultimate beings of creation.

Despite their dominance, the outer multiverse entities—those who existed beyond the known realms—remained unaware of the existence of the Divine Triad. However, that ignorance did not deter these entities from opposing the Heavenly Realm Universe.

The Unyielding Defenders

Time and time again, outer multiverse threats emerged to challenge the Heavenly Realm Universe, only to be met with devastating defeats.

Gabriel, with his 600 wings, led the legions of archangels in overwhelming light.

Azrael, the harbinger of endings, wielded his 1,200 wings to bring swift and decisive judgment.

Samael and Uriel, with their dark archangel forces, combined strategy and raw power to crush invaders.

The Nine Divine Dragons, with their immense strength and unique dominions, unleashed their wrath, ensuring no threat lingered for long.

The united forces of the archangels, dark archangels, and Nine Divine Dragons proved more than sufficient to eliminate any threats, obliterating opposing forces with ease.

The Divine Triad’s Activities

With no true enemies to conquer, the Divine Triad turned their focus to governing and refining their dominion:

1. Supervising Subjects
The Divine Triad oversaw the activities of their vast armies and realms, ensuring order and harmony within the multiverse.

Sung Jin-Woo observed from his throne in the True Absolute One Domain Realm, using his omniscient sight to watch over the flow of time and existence.

Ashborn guided his celestial armies, cultivating their growth and ensuring their loyalty.

Sung Su-Ho nurtured the draconic forces under his command, creating new techniques and strategies for their continued evolution.

2. Acquiring Knowledge
The Divine Triad delved into the endless repositories of knowledge across the multiverse, studying the origins of creation, the secrets of existence, and the mysteries of time itself.

Ancient texts from forgotten civilizations.

Records of alternate timelines and universes.

Observations of past, present, and future events.

3. Exploring Time
With realms not bound by time, the Divine Triad freely traversed the past, present, and future. They observed critical moments in history, intervened when necessary, and safeguarded the stability of the multiverse.

An Era of Tranquility

Under their supreme rule, the multiverse entered an unprecedented era of peace. The Divine Triad's might was unquestionable, their subjects' loyalty unwavering, and their dominion unchallenged.

Though threats occasionally arose, they were swiftly quelled by the archangels, dark archangels, and the Nine Divine Dragons. The Divine Triad remained unbothered by such minor disturbances, leaving these matters to their trusted subjects.

The Divine Triad’s existence transcended the need for conquest or conflict. They were not conquerors; they were guardians, overseers, and creators. Their focus lay in maintaining the balance of creation and exploring the infinite possibilities of existence.

The Pinnacle of Existence

In this state of supreme power and unparalleled knowledge, the Divine Triad continued their evolution, not through conquest or battle, but through enlightenment and creation. They were Gods Above All Gods, their presence ensuring that no force, within or outside the multiverse, dared to disrupt the harmony they had cultivated.

The multiverse flourished under their watchful eyes, a testament to their eternal reign.
